Brady NE. 69123

January 9, 2017

Federal Communications Commission:

We received Public Notice in which our request for Late-Filed FCC Form 471 Application ³⁴ was denied. Our Book Keeper wrote a letter stating the reason for a late file was due to a changing of our status. An Educational Service Unit (ESU) staff member deleted our information, than changed it from a school to a district without our knowledge. ESU's provide educational assistance on a regional level to assist schools in the state of Nebraska. Being a small rural district with under 200 total students we rely heavily on the services provided by the ESU. Our Book Keeper is diligent in meeting deadlines and had this one met prior to changes done through our ESU. The loss of e-rate has an impact on our financially limited resources. I hope that all things are considered when reviewing our appeal. Thanks for your consideration.

James McGown

Superintendent
Brady Public Schools

"EVERY STUDENT, EVERY TIME"
